

Get the most out of your pool this summer and fall - at **HUGE** savings.

It looks like more of us are spending more time in our backyards for our vacations this year. We want to help make it a happy trip.

Now, when you get a new Pool Heater installed, you not only **save \$200** on the installation, new customers also get up to **200 gallons of propane for FREE**. That's enough to say Holy Hocon!

Hocon Gas installs and services more pool heaters than just about anyone in Connecticut. We have terrific options for every budget. But inventory is severely limited. So call now us to get a free quote. We can often give you pricing by phone, or conduct a no contact site visit.
